

# Admissions Guide for BS Programs 2022-23

## The Centre of Excellence in Advanced Studies (CAS) at a Glance

The Centre of Excellence in Advanced Studies (CAS) has just begun its journey with the intent to provide quality education to learners, so that they become an integral and useful part of the society we live in. Even though, this is our first intake but rest assured that you are in safe hands and will be looked after well while you spend next four important years of your life. The pioneer management of this institute comprises of devoted entrepreneur who has been involved in managing institutes of higher education in UK, along with experienced educationists who have served at varied positions in one of the prestigious universities at the national level in Pakistan.

## Conducive Learning Environment

CAS provides conducive learning environment with modern equipment and infrastructure. Summary of the available facilities is as follows:

- Well equipped, modern, air conditioned class rooms
- Internet enabled computer lab
- Spacious library with ample reading space, books, newspapers and journals. Library also has direct access to e-books and other e-resources
- Student cafeteria where quality and tasty food is available at subsidized rates
- Separate common rooms, pray areas etc. for girls and boys

## Why CAS!

- **Gain work experience while studying** – We will arrange an opportunity for every student who joins CAS to work once a week after first semester
- **Frozen Fee Structure** – Fees will be frozen for academically performing and regular students, meaning any changes in fee structure will not affect fee to be paid by such students throughout the entire degree program
- **Scholarships** – Academic and need based scholarships are available for deserving and needy students
- **Make you learn** – We don't teach, we make you learn. Our scenario based teaching methodology will make you learn quickly and more effectively
- **Soft skills development** – Students are required to take skills development (specially designed) courses on non-credit basis which will assist them to develop their soft skills
- **Professional grooming** – Our rigorous training and guidance will help you mould into a true professional during your stay at CAS
- **Character Building and Personality Development** – We emphasize a lot on making you a better citizen

## Frozen Fee Structure

**SCHOLARSHIPS  
AVAILABLE**

Admission Confirmation

## Department of Computer Science

Life without computers cannot be imagined these days. Presently the department of Computer Science is offering BS Programs in these disciplines: -

### Bachelor of Science in Computer Science (BS CS)

Courses being offered during this degree program will cover almost core competencies such as: programming, algorithms, communications, networking, data structures, web development, system analysis and design, artificial intelligence etc.

### Bachelor of Science in Software Engineering (BS SE)

Bachelor of Science in Software Engineering is designed considering current state of the modern trends in the ever growing global software industry. Challenging curricula, high quality knowledge transfer and a technical emphasis, will help students to learn and apply practices, tools, and techniques in real-world.

### Bachelor of Science in Information Technology (BS IT)

This program is a blend of information and technology. It will provide in depth knowledge and equip learners with all the tools necessary to ensure that information is made available on as and when required basis.

## Department of Management and Social Sciences

Courses being offered by the department of Management and Social Sciences are listed below:-

### Bachelor of Business Administration

Through our BBA program, we provide you knowledge, equip you with tools and help you to groom into future business managers, leaders entrepreneurs.

### Bachelor of Science in English

We believe in making students learn and gain professional work experience, therefore, all students enrolled in this program will be engaged in CAS or at other institutions as teaching assistants, so that they get a chance to work on their interpersonal and knowledge transfer skills.

### Bachelor of Science in International Relations

The BS in International Relations prepares students to understand issues of international law, diplomacy, finance, and governance at a more sophisticated level, often in preparation for a master's degree in a related field.
