CAS HISTORY

We are The Centre of Excellence in Advanced Studies (CAS) – providing Business, Computer Science, Software Engineering, Art & Design (Fashion), Information Technology, and Law qualifications for the next generation of industry leaders. We are transforming learning opportunities to encourage an entrepreneurial mindset in our students; a mindset that will serve employers well and increase opportunities for all.

In a time where the world and careers are shifting, keeping up has never been more important. We recognise this and are unremittingly dedicated to future proofing the lives and careers of our students. At CAS, we will ensure you are ready to excel and adapt to the changing world of work.

WHO WE ARE?

CAS is a private higher education college situated on Islamabad Highway, near Quaid Monument. We are affiliated with The University of Gujrat (UoG), approved by Higher Education Department, Punjab (HED) – Directorate of Public Instructions (DPI). We are registered with the Securities Exchange Commission of Pakistan as a company for education and training. We are a member of Islamabad Chamber of Commerce and Industry. We gained centre approval from UK awarding bodies including Pearson, and ATHE, UK. CAS is registered with The School Education Department (Govt of Punjab) and affiliated with Federal Board of Intermediate and Secondary Education (FBISE).

Vision

To foster the knowledge, confidence and adaptability of our students so that they become our future leaders, helping our economy grow and benefiting society.

Mission

Transforming life chances by unlocking potential, growing minds, and supporting success.

WHY CAS?

- State-of-the-Art facilities
- Qualified and Experienced Faculty
- Foreign Qualified Administration
- Up to 50% Scholarships (Subject to meeting the eligibility)
- Guaranteed employment in parallel to studies
- Excellent student services
- Hostel (separate for male and female)
- Settle in UK through our study route

Work Placement:

LEARN – DEVELOP – GROW

In a time where the world is turning into a global village, we have realised that the students are not ready for the challenges they face ahead in their paths and this is exactly where we feel we are ahead of our competitors. Students at CAS don't have to wait for their studies to end before they join any work place. Through our unique model, this journey for our students starts as soon as they become a part of the CAS family. Just on the basis of our intent, approach and the hard work, our students are already applying the knowledge they gained during their early stages of education in the real world. This innovation will enable our students to become employed or entrepreneurs.
